Write Your Value Proposition

- **Customer Persona:** The Socially-Conscious Giver
- **Value Proposition:** As a college student, money often comes and goes, so when you donate, its impact must be guaranteed. Fortunately, charity: water ensures that 100% of public donations go directly toward clean water projects with absolutely none spent on overhead processes. Every project is documented and trackable on their website, so you can see the direct results on your contributions.

Write Copy for Your Landing Page

Transform your value proposition into a shorter, punchier version that works well as a **headline and subheadline**.

Headline: Don't spill a drop. Not of your money, or your water.

Subheadline: All proceeds directed towards clean water, with demonstrable, accessible results.

Brand Visuals – Color Palette & Typography (Font)

Note: select the colors from the [brand guidelines](#) and the font from the [typography doc](#)

Answer this: Explain what feeling or feelings is your color palette meant to communicate?

Yellow represents joy and energy. Navy conveys trust and credibility. Cream communicates warmth and comfort. Combined, these colors create a balance that demonstrates a hopeful optimism: if you place your money, trust, and dedication to the project, then the ultimate goal is always within reach.

Hint: Revisit the “Brand Visuals” section on HQ for insights on how different colors create emotional impact.

Brand Visuals – Photography

Explain your choice of photography for your hero image on your landing page. Why did you choose this image? Choose a image from here: [charity: water visuals](#) and use the [brand guidelines](#) to justify your choice.

I chose this image because it shows a young girl carrying a child on her back, who is clearly enjoying the moment while accessing clean water. The children represent the future and the overall atmosphere aligns with charity: water's mission to “focus on hope, not guilt”. Much of the image is very bright and comforting, with the open sky and the warm tones that convey a sense of excitement and potential.

Landing Page

Make sure to review the Landing Page requirements on the *previous slide*. Remember to use the Canva templates we provide [here](#) to complete this section.

[In 2–3 sentences, explain why you believe this landing page will appeal to your customer persona.]

This landing page appeals to the “Socially-Conscious Giver” because it specifically mentions the measurable benefits that their donations will result in. The hero image shows proof that humans have been positively impacted by charity: water. The large “Donate Now” buttons are a strong, repeated CTA that makes the conversion process easy for users.
